

Washers

WG-0170GL, The Easy washer of the market

Applicable to environmental protection systems, health systems, quality inspection systems, food and drug inspection systems, customs systems, public security systems, agricultural systems, forestry systems, power systems, tobacco systems, water companies, universities, research institutes, etc.; Enterprises, pharmaceutical companies, cosmetics companies, petrochemical companies, steel companies, biological products companies, third-party testing companies, etc. use: It can be used for cleaning all kinds of glass, ceramic, metal or plastic materials in the laboratory, and can also clean volumetric flasks, conical flasks, blue cap bottles, reagent bottles, injection vials, chicken hearts bottles, jars, flasks, beakers, Measuring cylinder, colorimetric tube, petri dish, test tube, pipette, tissue tissue culture vessel, separatory funnel, etc.

Model	WG-0170GL
Dimension (HxWxD) mm	835x617x765
Number of cleaning layers	2 layers
Chamber volume	170L
Circulation pump flow rate	500L/min
Heating Power	4kw/9kw
Basket identification system	Standard
Installation method	Undercounter
Washing capacity (For example)	25m l Volumetric flask 144 seats 100ml volumetric flask 42 seats + Sample vials 238 seats Sample vials 476 seats Pipettes 238 seats Petri dishes 168 seats

WGB-Z01
Upper level basket frame
With two connectors,
Used to connect 2
injector inserts
Auto self-sealing docking
valve H140, W536, D562mm

WGB-Z03
Upper level basket
frame
To load shelf
Height adjustable
Built-in spray arm
H183, W535, D552mm

WGB-Z05
Upper level basket
frame
To load shelf
Height adjustable
Built-in spray arm
H152, W536, D567mm

WGB-K08
Injection Module
8 injections
For 500-2000ml
Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø6xH220mm
H253xW140xD488mm

WGB-K11
Injection Module
10 injections
For 500-2000ml
Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø6xH220mm
H253xW140xD488mm

WGB-K21
Injection Module
21 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø4xH160mm
H183xW192xD488mm

WGB-K31
Injection Module
36 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø4xH160mm
H164xW204xD511mm

WGB-Z02
Lower level basket frame
With two connectors,
Used to connect
2 injector inserts
Auto self-sealing docking
valve
H158, W528, D566mm

WGB-Z04
Lower level basket
frame
To load tray and
shelf
H79, W529, D546mm

WGB-Z06
Lower level basket
frame
Double level
Built-in spray arm
H226, W529, D569mm

WGB-K10
Injection Module
10 injections
For 500-2000ml
Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø6xH220mm
H253xW140xD488mm

WGB-K20
Injection Module
21 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø4xH160mm
H253xW192xD488mm

WGB-K22
Injection Module
21 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø2.5xH110mm
Ø4xH160mm
Ø6xH220mm
H253xW192xD488mm

WGB-K30
Injection Module
36 injections
For Erlenmeyer flasks,
volumetric flask,
measuring cylinder &
so on Injector nozzle:
Ø2.5xH110mm
H114xW204xD511mm

WGB-Z11
Full frame injection module
38 pipettes can be loaded in 3 layers
10 pcs 10-100ml pipette, H550mm
14 pcs 10-25ml pipettes, H500mm
14 pcs 1-10ml pipettes, H500mm
H373, W528, D558mm

WGB-K80
Injection Module
84 injections
For 84pcs glass
tubes, centrifuge
tube, test tubes &
so on.
Injector nozzle:
Ø2.5xH70mm
H115xW190xD503mm

WGB-K90
Injection Module
119 injections
Can load 119pcs
glass tubes,
centrifuge tube, test
tubes, sampling vials
& so on. Injector
nozzle: Ø2.5xH45mm
H114xW190xD490mm

WGB-K90/1
Injection Module
119 injections
Can load 119pcs
glass tubes,
centrifuge tube,
colorimetric tubes,
test tubes & so on.
Injector nozzle:
Ø2.5xH90mm
H190xW190xD490mm

WGB-K91
Injection Module
119 injections
Can load 119pcs
pipettes,
Pipettes' maximum
length
can be 460mm
H189xW190xD485mm
